

Taking Care of Our Own®

Training program sponsored by
the National Fallen Firefighters Foundation
hosted by Redmond Fire & Rescue

Fire departments don't know when they will have a line-of-duty death or serious injury. Do you have a plan in place? Do you know how to notify survivors in a timely and proper way? Are your personnel records current? Do you know how to access Federal, State, and local benefits?

Targeted for all fire service personnel, this course covers 5 modules, including pre-incident planning, survivor notification, family and coworker support, and benefits and resources available for survivors.
