Old Business:

- Still waiting on Grant reimbursement (submitted back in September)

New Business:

- Please subscribe to the R5TA website. This will allow us to send flyers directly from the website when a class is set up, so you will no longer be getting forwarded class advertising emails.
 - Modified website to allow Bulk registration (payment) of students, but still only allows only 1 name listed. Will need to forward e-mails to other students not listed
 - Added a cart. Will allows you to pay for several classes at once, but we have not found a way to add multiple students to a single class.
- Hoping to establish a Satellite EMT Class for volunteers instead of a college class.
- Ordering county supplies. Previously ordered the 3 pack vacuum splints. Do we need to order more? We can order specific parts and not just the whole kit. Bring your needs to the next meeting.

Good of the Order:

- LFA usually offers a recruit academy 2nd week of March and 2nd week of September. Contact Casey or Rose if interested in a slot.
- ESF graduated EMS academy 3 last week and are on the streets. 7 new medics and EMTs
- ESF having their burn tower being re-evaluated by an engineer as it is well used. Will also be doing some live fire exercises inside the city.
- First 3 dedicated BLS ambulances designs due in February, 5 more ALS units pending
- LFA just finalized plans for a burn module. Delivery and set up in April (tentative)
 - Possible live fire instructor class opportunity
- Chief Bucich going to try to make more of a presence with R5TA for McKenzie since their Training Coordinator is now on shift work and can't always attend meetings.
- Please go to R5TA.com and enter your e-mail address at the bottom to subscribe to mailings
