

MASTERING FIREGROUND COMMAND CALM THE CHAOS!

2-DAY OPERATIONS WORKSHOP
HOSTED BY: MEDFORD FIRE DEPARTMENT

Based Upon the NEW Best-Selling Book by *Fire Engineering!*

Review actual inside-the-command-post incident video and audio for answers to the following questions...

- How do we ensure rapid size up and victim profiling is done consistently?
- How do we teach new and incumbent officers to set clear tactical objectives, have clear communications and establish command presence on our fires?
- How do we ensure lessons from the past permeate down into a simple, street-smart, and effective way?
- How do we apply the latest civilian victim profiling SIGNAL method and risk management to the modern fireground?
- How do we keep the NIOSH 5 LODD causal factors from coming into alignment?
- How do we really use ICS day-to-day and for greater accountability and communications?
- How do we ensure in-house ICS/NIMS/NFPA-compliant command and tactical training?
- How do we build upon our training and experience for next-level, larger incidents?
- How do we create consistency among all divisions, shifts, and battalions while developing new and aspiring officers?
- What do factors in modern construction and fire behavior mean to tactics and command?
- What are the implications of the latest FSRI studies regarding fire behavior?
- How do we factor in the latest data from Project Mayday and FirefighterRescueSurvey.com?

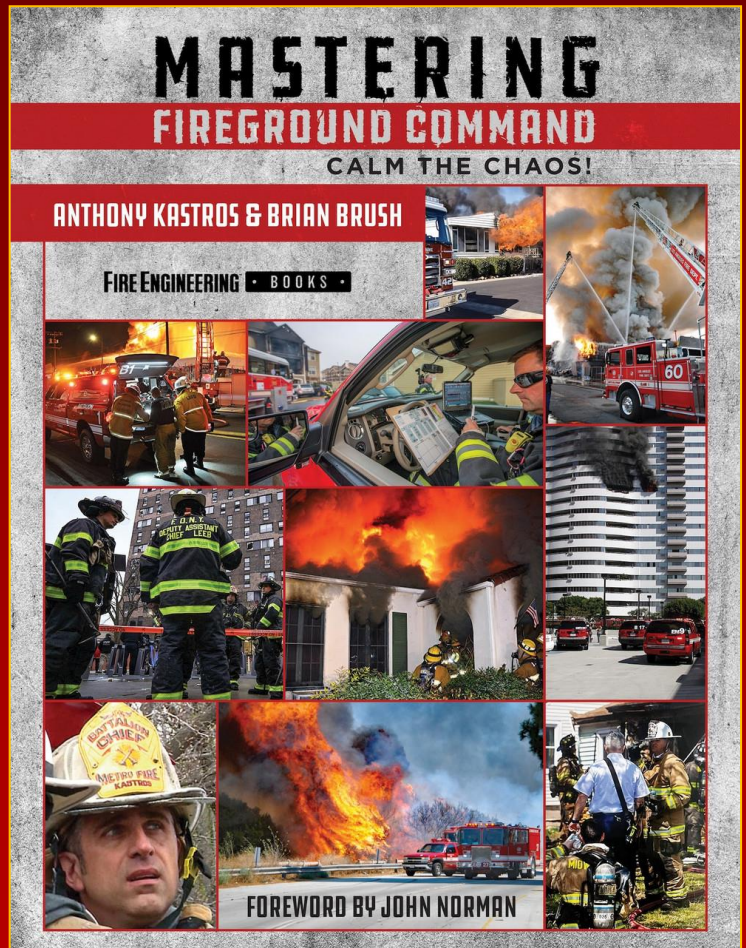

- ✓ All curriculum is NIMS & NFPA-compliant
- ✓ Excellent training for aspiring officers, seasoned officers wishing to improve command and tactical skills, or training officers looking to bring train-the-trainer to their agency/region
- ✓ Receive Tactical Worksheets for Structure Fires

January 13-14, 2025
