TRAINING OPPORTUNITY

40 HR FIRE INVESTIGATION

Fire Origin and Cause Investigator course is a **40-hour “REQUISITE KNOWLEDGE AND SKILLS” class for volunteer, combo, and career fire service and law enforcement personnel** who are assistants to the State Fire Marshal as per ORS476.060 and have fire investigation responsibilities as one of their primarily assigned functions. The class is based on NFPA 1033 Standards for Professional Qualifications for Fire Investigator, IFSTA Fire Investigator 2nd Edition, and Oregon DPSST Task Book objectives with an associated final exam at the end of the course (this course replaces the need to take the DPSST Fire Investigator Exam). After completing this class, the student will have a basic understanding of “Fire Origin and Cause”, documenting the fire scene, evidence collection/preservation, interviews/interrogations, post-incident investigation protection, and fire investigation case presentation. In addition to obtaining a certificate of course completion (NOCC), the student will be required to complete the Oregon DPSST NFPA 1033 Standard for Professional Qualifications for Fire Investigator JPR “Skills” portion of the Task Book prior to applying for state certification.

CLASS LIMITED TO FIRST 25 STUDENTS

April 14 to 18, 2025

8 A.M. - 5 P.M. (all days)
